Welcome to Aqua System

Water gardens transform an outdoor living space into a beautiful paradise where you can relax, unwind and enjoy quality time with family and friends. Water features become the focal point of any garden with their melodious tunes and natural ability to attract a variety of birds and butterflies. Whether you tuck a decorative fountain near the entrance of your home or create a backyard habitat with an ecosystem pond and waterfall, you'll find each day enhanced when you waterscape your landscape

PRODUCTS & SERVICES.

POND & FOUNTAINS

We offer newest solutions in garden, pond, cascade and fountain lighting. Fitted lighting will bring magic atmosphere and dose of mystery. Our huge experience in that field lets us realize our project quickly, effectively and comprehensively. With our help all your dreams about water garden come true.

** PUMPS * FILTERS * LIGHT * UV LAMP * BLADES * FOUNTAINS * POWER CONTROL*

LINING & WATERPROOFING SYSTEM

Pond liner is an impermeable geomembrane used for water retention, including the lining of lakes, garden ponds and artificial streams in parks and gardens. Pond liners need to be protected from sharp objects (eg stones) below the liner and from being punctured by any objects in the water body. Protection can be provided with layers of sand, concrete, fiber-matting and other materials. AQUA SYSTEM has had long term experience supplying hydro-isolating technologies for flat roofing, ballast and green roofing, all kinds of waterproof insulation for building and hydro technical structures offers full range of services.

** EPDM * HDPE * PVC * TOURCH FELT * SIKA * SCHOMBURG*

EROSION & GEOSYNTHETICS

Geosynthetics are used in building of highways, different kinds of roads, airports, car parks, strengthening slopes, embankments, railway track-ways, river banks, lakes, starve artificial water reservoirs. These are especially designed to strengthen bridge heads and flyovers. They are applied in building of artificial water channels, also to strengthen of high and steep soil walls to protect against sliding. These can be used in building of surroundings of landfills and disposals of poisonous substances.

* WINTER PROTECTION * NEW PONDS * LAKE CARE*

WATER SORBING GEOCOMPOSITES

HYDROBOX is an innovative, patent protected solution that allows to fully enjoy the beauty of vegetation. Thanks to its patented structure, HYDROBOX collects water, which is gradually used by plants. This allows for easier maintenance of home and garden vegetation in good condition, even during periods of droughts or while on holidays. HYDROBOX contain specially prepared super absorbent materials, having the capability to retain water and its solutions. HYDROBOXY, in different dimensions, are placed in containers or in the soil bedding, in order to collect water.

1 GRAM OF SAP MAY ABSORB UP TO 1,000 g OF WATER...

TIPITENTS

We embrace adventure. It is why Tipitent is so much more than a tent. It celebrates an adventurous way of life. Outdoors adventure means confronting the elements, earth, air, water, fire. This is why we call these tents our Adventure range. How better can you explore the earth, defy wind and rain, shelter from cold, sun, snow and insects and share the elemental comfort of an open fire?

** FELLOWSHIP * HEADROOM * SUPERB VENTILATION * STOVE OR OPEN FIRE * MULTIFUNCTIONAL *
* 5 MINUTES TO ERECT * ALL-ROUND SAFETY **
